

Federal Aviation Administration

Memorandum

Date: OCT 14 2016

To: See Distribution List

From: *for* Dorenda D. Baker, Director, Aircraft Certification Service, AIR-1 *Cmdr Alessandri*

Prepared by: Grant Schneemann, Delegation & Organizational Procedures Branch, AIR-160

Subject: Limited Designated Airworthiness Representative-Manufacturing (DAR-F)
Program for Accredited Distributors

Memo No.: AIR-100-16-160-PM13

This memorandum deviates from paragraph 7-1 and 7-3 of FAA Order 8100.5A, *Aircraft Certification Service - Mission, Responsibilities, Relationships, and Programs*. The deviation is needed to establish a temporary Designated Airworthiness Representative-Manufacturing (DAR-F) program, managed by the Delegation and Organizational Procedures Branch (AIR-160).

Purpose of This Memorandum

This memorandum allows an accredited distributor, as defined in Advisory Circular (AC) 00-56B, *Voluntary Industry Distributor Accreditation Program*, to request appointment of a qualified individual employee to be authorized as a Limited DAR-F for the accredited distributor's location(s).

This appointment will allow the qualified individual to issue an Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag, for new articles that were in the distributor's inventory prior to November 1, 2016. The program will allow the issuance of an FAA Form 8130-3 on qualified existing inventory that does not otherwise meet the documentation needs for repair stations that are authorized to perform maintenance, preventive maintenance, or alteration on European-registered aircraft.

This program is being established for a limited duration and will not be renewed. This memorandum and any Limited DAR-F appointments made under this program will expire on September 30, 2017.

Limited DAR-F Program Outline

A distributor accredited in accordance with AC 00-56B, *Voluntary Industry Distributor Accreditation Program* and is listed in the Voluntary Industry Distributor Accreditation Program database may request a Limited DAR-F appointment, under the following conditions:

1. The distributor has new articles in its inventory that were received prior to November 1, 2016, without FAA Form 8130-3.
2. The individual recommended for appointment is an employee of the accredited distributor that meets all of the qualifications specified in this policy memorandum.

Note: Outside of this program, a distributor may hire a DAR-F authorized to issue an Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag. To find an existing DAR-F, please use the directory on FAA.gov:
<https://designee.faa.gov/SelectTypeOfSearch/SelectTypeOfSearch>

Limited DAR-F Documentation Requirements for Issuance of FAA Form 8130-3

Eligible articles must have documentation meeting one of the following criteria establishing that they were produced under a production certificate, technical standard order authorization, or parts manufacturer approval (PMA) issued by the FAA under 14 CFR part 21:

1. Certificate of Conformity/Statement of Conformity from a Production Approval Holder (PAH). The part number and serial number, if applicable, must match any marking on the part.
2. Certificate of Conformity/Statement of Conformity or shipping document from a PAH supplier with verification of direct ship authorization.
3. Part markings made under 14 CFR § 45.15. If the PAH name or other identification is not included in the part marking, then the requirements listed in paragraphs (1) or (2) above must be met.

Note: For PMA parts which are not identified by the PAH as a “critical component,” the Limited DAR-F may add the following statement in block 12 of FAA Form 8130-3: *“This PMA part is not a critical component.”*

Function Code 56 Description

Function code 56 allows a Limited DAR-F to issue an Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag, after determining the article was in the accredited distributor facility prior to November 1, 2016 and was produced under 14 CFR part 21 by a PAH.

Note: The act of exporting is not a function performed under DAR-F privileges. It is the exporter’s responsibility (and not that of the Limited DAR-F) to ensure compliance with the importing country requirements.

Applicant Requirements

An applicant for a Limited DAR-F appointment under this program must meet all of the following minimum qualifications:

1. Be at least 23 years of age.
2. Be employed by an accredited distributor at the location(s) from which the Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag, will be issued.

3. Be assigned to a position in the accredited distributor organization with sufficient authority to allow them to administer the delegated function effectively without undue pressure or influence from others.
4. Have a minimum of 12 months actual working experience for the accredited distributor under the quality system at the accredited distributor location(s), specifically:
 - a. Experience in either receiving inspection and/or quality assurance processes; and,
 - b. Experience reviewing documentation which can be used to verify that the article was or is traceable to the PAH, such as a FAA Form 8130-3 and Certificate of Conformity/Statement of Conformity from a PAH.
5. Must have successfully completed FAA course: *Issuance of 8130-3 for Domestic and Export Approvals of Engines, Propellers, & Articles Only*. The online course requires a registration fee and is available on the FAA website:
<https://av-info.faa.gov/DsgReg/Sections.aspx?CourseInfoID=395>

Application Process

If a qualified individual employee at an accredited distributor is interested in pursuing a Limited DAR-F appointment, the applicant must submit the necessary documents by email to 9-AIR160-LimitedDARF@faa.gov. The submittal must include the following:

1. An FAA training certificate of completion for the applicant's successful completion of the required course: *Issuance of 8130-3 for Domestic and Export Approvals of Engines, Propellers, & Articles Only*.
2. A completed FAA Form 8110-14, Statement of Qualifications, signed by the individual employee. Form 8110-14 must address each of the qualifications listed in the previous paragraph, "Applicant Requirements." When completing this form, completely fill-out blocks 1-7. Put a check mark for "Designated Airworthiness Representative (DAR)" in block 8. For block 9, complete this section in its entirety. Do not fill-out blocks 10-13. Sign and date block 14. FAA Form 8110-14 is available on the FAA website:
<http://www.faa.gov/forms/index.cfm/go/document.information/documentID/1019686>.
3. A letter of endorsement signed by a management representative employed at the accredited distributor location where that individual employee is requesting to exercise the authorization. Where the accredited distributor has more than one accredited location, the applicant may apply to exercise privileges at each accreditation location under a single management endorsement letter. The required information needed for this management endorsement letter is in Attachment 2 along with a sample letter. It includes an agreement to allow the FAA access to the facility for designee oversight.

Note: After scanning and emailing a copy of the application documents to AIR-160, the Limited DAR-F applicant must maintain the original application materials in their records.

Selection and Appointment Process

AIR-160 will review the application and if the qualified individual employee is selected for appointment, AIR-160 will email a Certificate of Authority (COA) to the new Limited DAR-F containing the appointment date, expiration date, authorized function, authorized locations, an FAA point of contact, and any other guidance necessary to exercise the privilege of this appointment. An incomplete application will result in a denial email notification to the applicant and the accredited distributor.

Reporting and Record Retention Requirements

A Limited DAR-F appointed under this program must document their activity on a Quarterly Activity Report (Attachment 3). The Limited DAR-F must track the total number of FAA Form 8130-3 tags issued on a quarterly basis and make this information available to the FAA upon request.

Note: The Limited DAR-F must keep a copy of each FAA Form 8130-3 tag issued and make them available to the FAA upon request.

Duration

Limited DAR-Fs appointed under this program will not be renewed. All Limited DAR-F appointments under this program will be terminated on September 30, 2017. Appointments may be terminated earlier, at the FAA's discretion, based on need and ability to manage.

Attachments

There are three attachments to this policy memorandum:

1. Sample COA
2. Accredited distributor management representative application requirements checklist and sample endorsement letter
3. Quarterly Activity Report

Attachment 1 – Sample Certificate of Authority (COA)

Federal Aviation
Administration

[Date]

[Appointee/Applicant]

[Distributor Address]

Your appointment as a Designated Airworthiness Representative per § 183.33 of Title 14 of the Code of Federal Regulations (14 CFR) has been approved. This letter serves as your Certificate of Authority. This Certificate of Authority should be retained for your use and should be safely filed where it is available to you and the FAA.

Your designee number: DAR-F FC 0056B-XXXX

Name of Authorized Distributor:

Authorized location(s): (Distributor's operating address(es))

Date of Appointment:

AUTHORIZED FUNCTION AND LIMITATIONS:

You are granted function code (FC) 56; issuance of Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag.

Limitations:

- 1) May be used only to determine new articles in the inventory of the authorized distribution location(s) above were produced under 14 CFR part 21, by a production approval holder or its supplier with direct ship authorization, are in a condition for safe operation.
- 2) May only perform the specified function at the authorized location(s) for the accredited distributor listed on this COA for articles received prior to November 1, 2016.
- 3) Not permitted to address specific importing country documentation requirements.

Requirements:

- 1) The procedures in FAA Order 8130.21 for the completion and use of the Authorized Release Certificate, FAA Form 8130-3, Airworthiness Approval Tag, must be followed.
- 2) Articles eligible for the issuance of the Authorized Release Certificate, FAA

Form 8130-3, Airworthiness Approval Tag, under this limited delegation program must be accompanied by documentation and/or records establishing that it was produced under a production certificate, technical standard order authorization, or parts manufacturer approval issued by the FAA under 14 CFR part 21. Only the following are acceptable:

- a. Certificate of Conformity/Statement of Conformity from a production approval holder (PAH). The part number and serial number, if applicable, must match any marking on the part.
 - b. Certificate of Conformity/Statement of Conformity or shipping document from a PAH supplier with verification of direct ship authorization.
 - c. Part markings made under 14 CFR § 45.15. If the PAH name or other identification is not included in the part marking, then the requirements listed in paragraphs (a) or (b) above must be met.
- 3) For Parts Manufacturer Approval (PMA) parts which are not identified by the production approval holder as a “critical component” you may add the following statement in block 12 of FAA Form 8130-3: *“This PMA part is not a critical component.”*

This authorization expires on September 30, 2017, and is not renewable.

Sincerely,

Scott Geddie
Manager, Delegation and Organizational Procedures Branch, AIR-160

Attachment 2 – Accredited Distributor Management Representative Application Requirements Checklist & Sample Endorsement Letter

- Name of Accredited Distributor
- Accredited Distributor Location Address(s) [where the Limited DAR-F will be issuing FAA Form 8130-3]
- Phone Number
- Email Address
- In the letter, you must:
