

## Aviation Suppliers Association dba ASACB Adds IEC/ISO 27001 to Accredited Certification Programs

Immediate Release  
09 July 2024

The Aviation Suppliers Association dba ASACB is proud to announce that ANSI National Accreditation Board (ANAB) has granted ASA accreditation authority for IEC/ISO 27001. The decision to expand our accreditation offerings was made with the intent to provide new certification programs to enhance our clients' abilities to provide product and/or services that continue to bring value to the industries served.

“As cybersecurity threats and the ability to manage and protect access to organizational and client information become more prevalent, a certification such as IEC/ISO 27001 for information management security system lets an organization better serve and protect their stakeholder's interest”, said Sam O’Connor, VP Technical Services. “This is why ASACB chose to expand our accredited programs to include IEC/ISO 27001.”
